Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 27 June 2005 has been entered.

Election/Restrictions

2. Newly submitted claims 21-26 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the inventions of newly submitted claims are related as subcombinations disclosed as usable together in a single combination with the invention originally claimed.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-26 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3724

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 20 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Tweed et al. (US 5,591,072).

Tweed discloses all the recited elements of the invention including a rotatable blade having a sharp edge (102), a drive mechanism (an inherent characteristic of a slicing machine), a blade sharpener assembly having a sharpening stone (38), a deburring stone (58), a retractable shield (80), and a sharpening actuator (28) wherein the retractable shield movable into a position substantially shielding the sharpening stone (Fig. 2) and a position sharpening contact with the blade including moving linearly downwardly toward the blade (Fig. 4, the sharpening stone of Tweed has to move downwardly toward the blade in order to engage a front part of the blade since the blade is disposed at an angle relative to vertical). Regarding claim 27, a frame (50) is associated with the deburring stone, sharpening stone, and retractable shield and is in indirect contact with and movable downwardly by the sharpening actuator (element 50 moves in the same direction as the sharpening stone which moves downwardly in an angle toward the blade).

Response to Arguments

5. Applicant's arguments with respect to claims 20 and 27 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion
